Don't let this happen to you!

It's that time of year when folks are doing extra cleaning around the house and trying new products to make those jobs easier. We strive to make sure the sewer system stays clear and doesn't back up into buildings. You can help us (and your neighbors) by not flushing:

- grease or oil down drains. Grease such as cooking oils, tallow, bacon grease, etc. will harden in the lines, and on the float switches, causing the pumps not to work.
- non-biodegradable items down drains. Items such as cigarette butts, dental floss, Q-tips, disposable diapers, sanitary napkins, tampons or condoms can clog the pump and pipes.
- rigid or gritty materials down drains such as cat litter, coffee grounds, chicken bones, egg shells, fish scales, etc. Limit the materials you put through a garbage disposal to edible food products only.
- flammable or volatile liquids down drains such as gas, waste oil, and thinners. It is illegal to dispose of these items in the sewer system.
- household chemicals down drains, such as paint, pesticides, herbicides, strong cleaning products, or other toxic chemicals.

Manufacturers list many things as flushable, but the only thing that belongs in a toilet is toilet paper and human waste.

On behalf of your neighbors and friends, thank you for helping to keep clogged sewer lines at a minimum!

Remember It's a Toilet not a Trash Can!

Help Make Kimball Clean & Green by Participating in Clean-Up Day!

Saturday, May 2

8:00am - 11:00am

**Location: AM Maus &
Son Parking Lot -
HWY 55**

Hazardous Chemicals
