XIV. Property Damage

Snowplowing, removal and ice control operations can cause property damage even under the best of circumstances and care on the part of operators. The major types of damage are to improvements in the City street/road right-of-way, which extends approximately 10' - 15' beyond the curb location.

The intent of the street/road right of way is to provide room for snow storage, utilities, sidewalks and other City uses. However, certain private improvements such as mailboxes are required within this area. Therefore, the City will cooperate with the property owner to determine if the damage for mailboxes, which are allowed to be placed in the street/road right of way, was caused by physically being struck by a plow blade, wing or other piece of equipment. Mailboxes should be constructed sturdily enough to withstand snow rolling off a plow or wing. Therefore, damage resulting from snow is the responsibility of the resident. The City will repair or replace mailboxes in those instances where the City is responsible for the damage up to a maximum of \$30.

- Remove snow and ice from the hydrant
- Clear an area approximately 3 feet around the hydrant
- Clear a path from the hydrant to the street

hydrant near your
