Does the City have updated contact information for your City utility account on file?

If you have received a notice from City Hall regarding running your water due to the temperature to prevent your service line that goes to the City's water main from freezing, a price adjustment will be reflected in the dollar amount charged for the water and sewer service directly. It WILL NOT be shown in the gallon amounts that are shown on your bill.

We will contact you to notify you when the temperature of the water in your service line has reached a safe temperature that you no longer need to run it at a trickle. Please keep running the water if you have not heard from us.

Please contact City Hall if you have any questions or need a copy of the City's policy. The policy can also be found on our website at: www.ci.kimball.mn.us Select "City Policies" under the "Government" tab.
