 8 am—11 am.
 Must be over 18 years old.
Lunch is provided!!
 Reach out to Allison or Nicole at City
 Hall if interested

City of Kimball Hydrant Flushing

The City's Water Department will be flushing hydrants mid to late September (exact dates will be posted on the City's Facebook page). This is an important preventative maintenance activity.

During this process, hydrants are opened throughout the City and water is forced through them at high speeds to clean the pipes and remove sediment and minerals that have settled over time. This process also allows City Staff to ensure that hydrants are functioning properly. While this may appear to waste water, this process is part of a routine maintenance program that is necessary to maintain the integrity of the City's water system. This also allows us to continue to deliver quality water to our customers.

During this process, you may notice yellow and/or brown discoloration near the area that is being flushed. While the water is safe for drinking, it may discolor laundry. If you are experiencing discolored water, we advise you to hold off on doing laundry and run water until it is clear.

If you have water discoloration that lasts longer than two (2) days, please contact the Public Works Department at (320)980-4906.

FREE OPTION TO PAY YOUR CITY BILL

The City has worked with the payment vendor to provide a **FREE** option for you to auto pay your City bill. Please reach out to City Hall for the correct paperwork.
